PROJECTS

TITLE - NEWS MONKEY | HTML, CSS, ReactJS, APIS |

[\(view project\)](#)

Description : A news application designed to provide campus students with quick, reliable, and categorized updates on current events and trending topics. Developed using HTML, CSS, and ReactJS to create a clean, responsive, and engaging user interface that ensures a seamless news-reading experience across devices.

TITLE - CARRENTALS | MongoDB, Node, Express |

Description : Developed a web-based car rental platform that allows users to browse available cars, view details, and make bookings. The application provides a user-friendly interface for both customers and hosts, with features to add, edit, and delete car listings, enhancing the vehicle rental experience.
